Tragically 17 babies a day are stillborn or die shortly after birth in the UK. We believe this figure is unacceptably high and we want to ensure that as few parents as possible have to experience this devastating loss. The continued rise in Sands public profile has led to a rapid increase in demand for our services. Your valued gift will go towards enabling Sands to continue to respond to that need and promote research and changes in antenatal practice that could reduce the loss of babies' lives.
